LICENSE AGREEMENT

*** Please read this entire agreement ***

This End-User License Agreement (the "Agreement") is a legal agreement between you ("Licensee"), the end-user, and Webvisia LLC ("Webvisia") for the use of the Lines software product ("Software").

By using this Software or any part of it, you are agreeing to be bound by the terms of this Agreement.

If you do not agree to the terms of this Agreement do not install this Software.

COPYRIGHT

Both United States copyright law and international treaty provisions protect this Software.

LICENSE AND DISTRIBUTION

The evaluation copy of this Software is free of charge for unlimited period of time. You must pay the license fee and register your copy to continue to use the Software and remove the nag screen.. You're allowed to make as many copies of this evaluation version (in UNMODIFIED form) as you wish to distribute.

RESTRICTIONS

You may not nor permit anyone else to de-compile, reverse engineer, or disassemble, modify, or create derivative works based on the SOFTWARE or the documentation in whole or in part. You may not use the Software for any commercial purpose or public display, performance, sale or rental. You may not use the Software to perform any unauthorized transfer of information (e.g. transfer of files in violation of a copyright) or for any illegal purpose.

NO WARRANTIES

Reporting Bugs

If you find a bug in our software, it would be helpful if you reported the bug to us. To report a bug, please e-mail us with Bug Report Request in the subject line. In your e-mail, include the following information:

What type of Pocket PC you are using (i.e. Personal).

The software name and version number (i.e. Lines 1.10).

The error number and the exact contents of the error message.

A brief description of how we can recreate the error.

Your name and e-mail address so we can contact you when the bug is fixed.

It is best to report bugs by e-mail, so that the programmers have a written record of the information they need to solve the problem. As soon as we receive your e-mail, we will examine the problem, and fix it. Because our programmers are busy creating software, it can take a while for them to reply, but they will release a new version of the software that fixes the bug as soon as they can.

New versions

v.1.10 – Improved game play.

The Goal

The aim of the game is to score points by aligning balls of the same color. When five or more balls of one and the same color are aligned vertically, horizontally or diagonally they disappear. You get points for this (the points you get are equal to the number of aligned balls).

Start

Start the **File Explorer** and then go to **My Device/ Program Files/Games/Webvisia Lines** and tap on the name of the game. The game has two levels of difficulty – easy and hard.

New Game

To start a new game go to **File|New Game**. Choose the level that best suits your skills and then tap **Easy** or **Hard** to play the game.

The Sound Option

You can turn on/off the sound by tapping the button next to the menu '**Tools**'.

Choose Your Level

Lines has two difficulty levels – easy and hard. The difference is in the number of balls in the store, which is two or three for each level respectively.

Choose the level that best suits your skills and tap **Easy** or **Hard** to play the game.

Play Lines

The Line Balls

The game has seven different colored balls.

The Store

The store is in the right part of the field and contains two or three balls which will appear in the next turn.

Play Lines

The Lines' playing field contains 81 squares with particular number of balls, depending on the difficulty of the level you are playing. The game goes in turns. Each turn two or three balls of random color appear on random places on the field.

You can then move one ball by selecting it and pointing its destination. The figure can move only in horizontal and vertical direction, through unoccupied fields only. If you manage to arrange five or more balls with the same color in a line (horizontal, vertical or diagonal) they disappear from the field and your score increases. Longer lines are scored higher.

You can use the **Undo** button to go back to the previous turn. If you have made ten or more turns you can use the **Undo** button maximum ten times. You can not use the **Undo** button if you have arranged a line in the previous turn.

Game Over!

When a game is completed a Game Over screen appears. Tap anywhere on the display to return to the main screen.

Congratulations!

Congratulations! You are one of the top! If you have gained high score your result will be one of the best. The following dialog will appear:

Enter your name for the record and tap **OK** to continue. Alternatively, tap **Cancel** to move on to the next game.

High Score

To view the best scores in the game go to **File|High Score...** . Tap OK to exit the form.

HISCORE		
NAME	SCORE	LEVEL
1 VLADI	5	EASY
2 NEIL	3	EASY
3 KEVIN LY	2	HARD
4 MARYANN	2	EASY
5	0	EASY
6	0	EASY
7	0	EASY
8	0	EASY
9	0	EASY

Scoring

To view scores go to **File|High Score.**

Help

The game Lines offers some simplified internal help. You can find there some basic information of the rules of the game and its final goal.

To view these tips go to **Tool|Help**. Tap **OK** to quit the screen.

The End

Well, that's all for now. Enjoy your time with **Lines**!
