Welcome and Registration

Welcome to Pairs

The game Pairs is a colorful remake of the old classic game in which pairs displaying the same symbol are matched until the field is cleared. Pairs are believed to be a good game for training one's memory.

Included in this archive are the following packages:

Pairs.ppc_arm.CAB, Pairs.ppc30_mips.CAB, Pairs.ppc30_sh3.CAB, Setup.ini, Setup.exe. This is the software package that you need to install on your Pocket PC and after that run Setup.exe.

Pairs_PocketPC.pdf – This is the User's Manual. You are reading it right now.

System Requirements

The Goal

The goal of the game is to uncover all matching pairs of symbols thus clearing the playing field. There is no time limit, but time affects your score - the faster you complete the task, the better your score will be. The number of taps is also decisive – try to make as few void taps as possible.

Start – Set the Size of Your Playing Field

Start the **File Explorer** go to **My Device/ Program Files/Games** and tap on the icon of the game Pairs. Select the number of the rows and the columns in order to adjust the game preferences. The minimum size of the field is 2 columns x 1 row and the maximum is 8 columns x 7 rows. Tap **Start** to run the game.

New Game

To start a new game go to **File|New Game**. If necessary, modify your preferences. Tap **Start** to continue.

The Sound Option

You can turn on/off the sound by tapping the button next to the '**Menu**'.

Playing Pairs

Your new game begins with a number of covered squares. The bigger the playing field is designed – the greater the number of squares to be uncovered will be. Tap on the squares to uncover them and view the symbol they display. When two identical symbols are displayed simultaneously, both squares will disappear, thus clearing space from the playing field. If symbols do not match, your tap is considered void and the squares will get closed again. Your aim is to match all pairs for as little time as possible and with as few void taps as possible.

Game Over!

When a game is completed a you will see the following message:

Congratulations

Congratulations! You are one of the best! If your time for matching the pairs was really good and if you did not waste time for many void taps, your score will be one of the best. The following screen will be displayed:

The image shows a 'Dialog' box with a blue title bar and a close button. The text inside the dialog reads: 'You are one of the top!' followed by 'Enter your name :' and an empty text input field. Below the input field are two buttons: 'OK' and 'Cancel'.

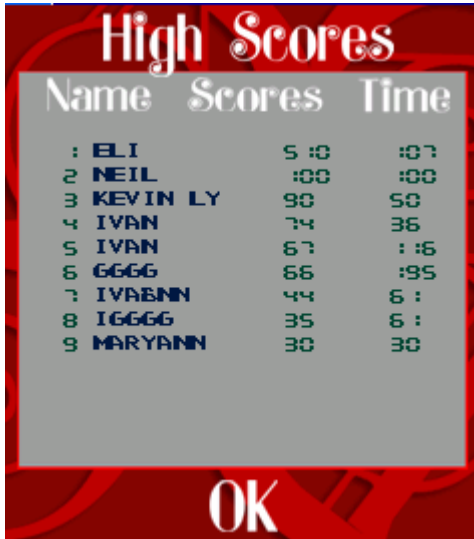

Below the dialog box is a representation of a keyboard layout with four rows of keys:

123	1	2	3	4	5	6	7	8	9	0	-	=	↵
Tab	q	w	e	r	t	y	u	i	o	p	[]

Shift	z	x	c	v	b	n	m	,	.	/		←

Keep Track – The Score

Your score depends not only on time, but as well as on the number of taps you make. The fewer taps you make to uncover and match the pairs – the better your score will be. To view your score, look at the upper left corner of the screen.

To view the highest scores, go to **File|High Score**. Tap on the OK button to exit the form.

Scoring

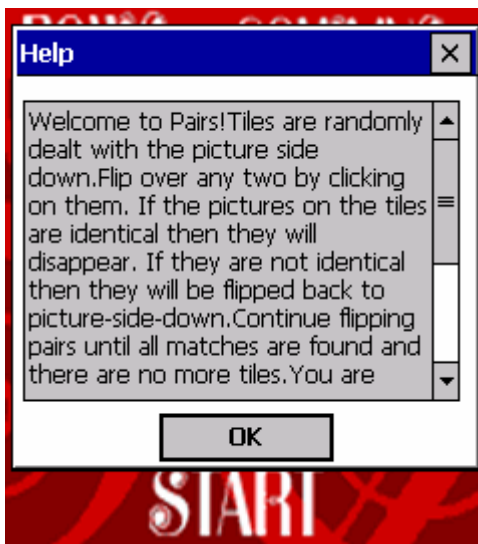

Two factors rule your score: first, the time you used to find all the matches (the faster you do this, the higher your score will be); second, the total number of pairs you needed to uncover in order to find all matches (the smaller this number is, the higher your score will be).

To view best scores, go to **File|High Score**. Tap anywhere to exit the form.

Help

The game Pairs offer some simplified internal help. There you can find some basic information about its rules, goal and scoring.

To view these helpful tips go to **Tools|Help**. The following screen will appear:

Use the arrows to scroll through the information. Tap **OK** to quit the screen.

The End

Well, that's all for now. Enjoy your time with **Pairs**!
